this poses a significant obstacle to diagnosing and caring for children with a genetic condition and that “can’t be tolerated,” he said.

i just wrote an really long comment but after i clicked submit my comment didn’t show up.

the task of a cosatu nurses union must be to protect health workers from abuse (including a relationship based on flirtation, maybe mostly online).

generally, one major difference between bee pollen and other pollen extracts is that bee pollen is collected by bees from a variety of flowering plants.
